

PRASHANT SINGH CHAUHAN

Data Analyst | Business Intelligence Developer

Toronto, ON | +1(437)-665-0895 | Prashantch.94@gmail.com | [LinkedIn](#) | [Github](#)

PROFESSIONAL SUMMARY

Data Analyst and Business Intelligence Developer with 5+ years of experience in Excel, Power BI, SQL, Python, and Tableau — specializing in KPI reporting, dashboard development, and predictive analytics across operations, retail, and financial environments.. Hands-on experience transforming raw data into structured datasets, performing variance and trend analysis, and delivering insights that improved revenue visibility and reduced operational inefficiencies. Strong understanding of ETL concepts, data validation, and stakeholder-focused reporting.

SKILLS

Power BI (DAX, Power Query, Data Modeling) | Tableau | SQL (MySQL, SQL Server, Snowflake)
Python (Pandas, NumPy, Scikit-learn, Seaborn) | Excel (Pivot Tables, Macros, VLOOKUP)
ETL & Data Pipeline Development | Star Schema & Data Modeling | Feature Engineering | Predictive Modeling |
K-Means Clustering | Time Series Forecasting | KPI Reporting | Dashboard Development | MS-Suite | Jira

WORK EXPERIENCE

Tim Hortons

Canada, Ontario

Operations Analyst

August 2023 – September 2025

- Hired as an in-house operations analyst to build a reporting infrastructure for a multi-location franchise group.
- Analyzed 1,200+ daily transactions using Excel to track KPIs such as revenue, average order value, and sales growth trends
- Automated reporting and tracking activities using advanced Excel functions, including Pivot Tables, VLOOKUP, Data Validation, and Macros
- Built forecasting models using historical sales data to optimize inventory planning, reducing food waste by 12% annually

Four Seasons Hotels & Resorts

United States, Colorado

Operation & Reporting Analyst (Management Training Program)

Jun 2022 – May 2023

- Collaborated with cross-functional stakeholders to gather requirements, conduct workshops, and translate business needs into functional and technical BI solutions.
- Performed variance analysis between forecasted and actual sales data to identify revenue gaps
- Supported KPI tracking and reporting for premium beverage sales contributing to \$50K+ monthly revenue
- Improved inventory accuracy by 10% through structured audits and data tracking

Edvora

Remote

Junior Data Analyst

September 2020 – June 2022

- Performed data cleaning and transformation using Excel (Power Query) on structured datasets from APIs and internal systems with a nuclear team of 6 members.
- Conducted exploratory data analysis (EDA) to identify trends, anomalies, and data quality issues impacting application performance of 1000+ application users
- Maintained data documentation, data definitions, and reporting processes to support team scalability and knowledge sharing.

PROJECT EXPERIENCE

Telecom Customer Churn Analysis & Retention Strategy | Python, SQL, Scikit-learn, Tableau

- Analyzed 7,043 customers using SQL and Python (Pandas) by developing **data pipeline** to surface a 26.5% churn rate against a 15% industry benchmark, estimating **\$3M+ in annual preventable revenue loss**
- Built Machine Learning models such as **Logistic Regression, Random Forest model** (79% accuracy) to predict churn risk, with tenure, monthly charges, and contract type emerging as top drivers via feature importance analysis

Financial Performance & Risk Reporting Dashboard | Power BI, SQL Server, DAX, Excel

- Developed a **financial reporting dashboard** to analyze trends, profitability, and risk indicators for business decision-making
- Created **KPIs, calculated metrics, and drill-through reports** using DAX to enable deeper financial analysis

EDUCATION

General Assembly Bootcamp

Canada

Data Analytics bootcamp with Capstone Project

Graduation Date: May 2026

Swiss Hotel Management School

Switzerland

Master's of International Business in Hotel and Event Management

Graduation Date: October 2020

PSIT College of Engineering

India

Bachelor of Engineering – Electronics & Communication

Graduation Date: May 2018

CERTIFICATIONS & BADGES

- IBM Data Analysis using Python Jan, 2026
- HackerRank SQL Certification April, 2026
